

**Another morning
with pain from**

*Polymyalgia
Rheumatica?*

Is a Polymyalgia Rheumatica research trial right for you?

Polymyalgia Rheumatica, an inflammatory rheumatic disease, is most common in people over 50 and 75% of those diagnosed are **women**.

Symptoms often include aching and stiffness that may be worse in the morning.

Adults looking for new options may qualify for a Polymyalgia Rheumatic clinical trial.

Contact us today to see if you qualify.
